2. PARTICIPATION OF UNIVERSITY SKOPJE ACADEMIC STAFF

Name and Surname: Sime Arsenovski

Academic Title: Full Professor

Role / Function in the Project: Author, Academic Staff

Specific Contribution to the Project

Administrative management; business analysis; process modelling; delivery of training.

3. CONTENT AND ACHIEVED RESULTS

Brief Project Description

The SMILE project aimed to establish a sustainable network system providing an interoperable and multilingual environment for available university programmes. The project connected academic institutions and educational offerings through a common technological and organisational framework. The contribution included administrative management, business analysis, process modelling and delivery of training. The project supported interoperability, multilingual access, multicultural academic cooperation and the application of information technologies in higher education, creating a basis for more efficient exchange and use of university programmes among partner institutions.

Key Results / Outputs

Interoperable multilingual network environment; business and process models; training; international academic cooperation.

Publications / DOI / Other Relevant Scientific Results
